# BEACONS & REVERSING ALARMS

# BEACONS & REVERSING ALARMS

Beacons are designed as a safety solution device with KT beacons available in amber, din blue, green, red and cal blue. Magnetic and bolt beacons are available in 12V and 24V. Bolt beacons are fastened by a 3 bolt system.

Our light and heavy duty backup alarms (Tek Back Alarm) use broadband sound technology allowing determination of a reversing vehicle without the normal beeping of other alarms.

## BEACONS

### 400 SERIES - MAG 70

|           | PART NO. AMBER | PART NO. DIN. BLUE | PART NO. GREEN | PART NO. RED | PART NO. CAL BLUE |
|-----------|----------------|--------------------|----------------|--------------|-------------------|
| LESS BULB | KT400.000      | KT400.100          | KT400.300      | KT400.400    | KT400.200         |
| 12 VOLT   | KT400.001      | KT400.101          | KT400.301      | KT400.401    | KT400.201         |
| 24 VOLT   | KT400.002      | KT400.102          | KT400.302      | KT400.402    | KT400.202         |

Maximum safe working speed 70mph (112kph)  
Cord extends to 2600mm length. Plug fits normal cigar socket

## 403 SERIES - 3 BOLT

|           | PART NO. AMBER | PART NO. DIN. BLUE | PART NO. GREEN | PART NO. RED | PART NO. CAL BLUE |
|-----------|----------------|--------------------|----------------|--------------|-------------------|
| LESS BULB | KT403.000      | KT403.100          | KT403.300      | KT403.400    | KT403.200         |
| 12 VOLT   | KT403.001      | KT403.101          | KT403.301      | KT403.401    | KT403.201         |
| 24 VOLT   | KT403.002      | KT403.102          | KT403.302      | KT403.402    | KT403.202         |

3 x M6 Bolts, requires three holes of 7mm dia. on 130 PCD  
300mm free length of cable

## REVERSING ALARMS

### LIGHT DUTY REVERSING ALARM

| PART NO. | DB AT 1.2M | AVG. AMP DRAW | VOLTAGE (VDC) | WEIGHT (KGS) |
|----------|------------|---------------|---------------|--------------|
| KTBBS82  | 82DB       | 0.25          | 12-24         | 0.17         |
| KTBBS87  | 87DB       | 10.35         | 12-24         | 0.17         |

## MEDIUM & HEAVY DUTY REVERSING ALARM

| PART NO. | DB AT 1.2M | AVG. AMP DRAW | VOLTAGE (VDC) | WEIGHT (KGS) |
|----------|------------|---------------|---------------|--------------|
| KTBBS92  | 92DB       | 0.48          | 12-24         | 0.22         |
| KTBBS97  | 97DB       | 0.6           | 12-24         | 0.22         |
| KTBBS107 | 107DB      | 1.2           | 24            | 1.23         |

MEDIUM DUTY - For use on commercial vehicles and light duty machinery (82-87 decibels)  
HEAVY DUTY - For use on construction, plant and earthmoving equipment (92-107 decibels)
