# CIRCUIT BREAKERS

# CIRCUIT BREAKERS

Circuit breakers are designed to make, break or carry a current through a circuit. The manual reset and automatic reset circuit breakers work by interrupting the electric current when it becomes too high. KT circuit breakers are 12V - 24V and come in a vast range of amperage ratings to suit the application and mounting requirements. Blade fuse replacements are housed in aluminium; the auto-reset circuit breaker is housed in nylon; and the manual reset circuit breaker is housed in bakelite.

## BLADE FUSE REPLACEMENT

PART NO.	AMP	DESCRIPTION	PKT QTY
KTCBB10	10	BLADE FUSE CIRCUIT BREAKER	1
KTCBB15	15	BLADE FUSE CIRCUIT BREAKER	1
KTCBB20	20	BLADE FUSE CIRCUIT BREAKER	1
KTCBB25	25	BLADE FUSE CIRCUIT BREAKER	1
KTCBB30	30	BLADE FUSE CIRCUIT BREAKER	1

VOLTAGE: 12V - 24V  
 TEMPERATURE RATING: 25°C TO 60°C  
 HOUSING MATERIAL: Aluminum

## AUTO RESET

PART NO.	AMP	DESCRIPTION	PKT QTY
KTCBA10	10	AUTO RESET CIRCUIT BREAKER	1
KTCBA15	15	AUTO RESET CIRCUIT BREAKER	1
KTCBA20	20	AUTO RESET CIRCUIT BREAKER	1
KTCBA25	25	AUTO RESET CIRCUIT BREAKER	1
KTCBA30	30	AUTO RESET CIRCUIT BREAKER	1
KTCBA40	40	AUTO RESET CIRCUIT BREAKER	1
KTCBA50	50	AUTO RESET CIRCUIT BREAKER	1

VOLTAGE: 12V - 24V  
 TEMPERATURE RATING: 30°C to 100°C  
 HOUSING MATERIAL: Nylon

## MANUAL RESET

PART NO.	AMP	DESCRIPTION	PKT QTY
KTCBM60	60	MANUAL RESET CIRCUIT BREAKER	1
KTCBM70	70	MANUAL RESET CIRCUIT BREAKER	1
KTCBM80	80	MANUAL RESET CIRCUIT BREAKER	1
KTCBM100	100	MANUAL RESET CIRCUIT BREAKER	1
KTCBM120	120	MANUAL RESET CIRCUIT BREAKER	1
KTCBM150	150	MANUAL RESET CIRCUIT BREAKER	1

VOLTAGE: 12V - 24V  
 TEMPERATURE RATING: 30°C to 100°C  
 HOUSING MATERIAL: Bakelite
