TRAILER ACCESSORIES

TRAILER ACCESSORIES

The KT LED Trailer Plug features an inbuilt LED circuit tester. This revolutionary technology provides an accurate visual check via six illuminated LED's to ensure there is power supplied through each correct circuit and that power from the source is active through the trailer plug.

The KT LED Trailer Plug also has an on/off switch and are compatible with all other current plugs on the market.

The 7 pin small and large round trailer plugs have our revolutionary 3 step wiring body for easy and simple installation.

KT COILS

The innovative ideas from KT continue in the release of the first ever car coil adaptor. In the past problems of cable strain on towed vehicles can pull out the adaptor and similarly should the lead be too long then the cable can drag. The KT Car Coil Adaptor comes with 1 meter of coiled cable allowing flexibility and prevents adaptors being pulled out of sockets. Incorporating the LED trailer plug which tests the electrical circuits to ensure power is being applied from the application.

TRAILER PLUGS

LED TRAILER PLUG CIRCUIT TESTER

The LED trailer plug circuit tester is designed to be a quick and convenient way to test the trailer socket on your car. Each tester has our KT LED trailer plug at one end with 5m of 7 core trailer cable going to a standard plug on the other end. The LED trailer plug tester accurately tests faulty or corroded pins, Bad earthing connections and Cross wired connections.

PART NO.	DESCRIPTION
